

DATA MODUL boosts fire protection at the Weikersheim Fire Brigade with a new water mist lance

Weikersheim, 29th November 2023

On 14 November 2023, DATA MODUL GmbH presented the Weikersheim Fire Brigade with a new water mist lance worth approximately 2000 euros. The presentation took place in the presence of Michael Scheuenstuhl, DATA MODUL GmbH's managing director, as well as city commander and deputy mayor Jürgen Friedel.

The fire brigade plays a crucial role in the town's safety, in particular in the protection of local industrial companies. The water mist lance that has now been presented is a special nozzle that enables firefighters to reach fires in hard-to-reach places. With its donation, DATA MODUL wants to strengthen the safety infrastructure of the entire community on the one hand, but also say thank you for the work carried out largely on a voluntary basis.

Michael Scheuenstuhl emphasised the fire brigade's importance for Weikersheim: "The fire brigade has an enormous impact on our community, and it is an honour for us to support their work. The presentation of the new water mist lance is an expression of our appreciation for the tireless dedication of the firefighters, who are ready day and night to guarantee our town's safety."
