6. Resolution on the approval of the compensation report

The Executive Board and the Supervisory Board propose to approve the compensation report for the fiscal year 2023 prepared and audited pursuant to section 162 AktG.

II. Compensation report (agenda item 6)

The following compensation report pursuant to section 162 AktG outlines and explains the compensation individually granted and/or due in the fiscal year 2023 to current and former members of the Executive Board and Supervisory Board of DATA MODUL AG.

The compensation report for the previous fiscal year 2022 was approved by the Annual General Meeting of the Company on 9 May 2023. The compensation system also approved there pursuant to section 120a para. 1 AktG has been observed in this compensation report.

1. Compensation of the Executive Board

Compensation system for Executive Board members

On 23 March 2023, pursuant to sections 87 para. 1, 87a para. 1 AktG, the Supervisory Board resolved on changes to the previously applicable compensation system for the Executive Board as approved by the Annual General Meeting on 6 May 2021. The changes are effective as from 1 January 2023.

On 9 May 2023, the compensation system was submitted to the Annual General Meeting pursuant to section 120a para. 1 AktG and approved by the required majority vote.

In the fiscal year 2023, the Supervisory Board did not make use of any of the options established in the compensation system to deviate temporarily from the compensation system.

Overview of the compensation system

The compensation of Executive Board members of DATA MODUL AG is based on its size and global activities, its business and financial position, its profitability, and its prospects as well as the amount and structure of Executive Board compensation of comparable companies in and outside Germany.

In addition, the responsibilities and personal performance of the Executive Board are taken into account.

The compensation structure is designed to be competitive and to provide an incentive for successful work for sustainable corporate development.

The following chart presents the components of the compensation system as well as the annual target amounts. Thereafter, the components, and how they were actually applied in the fiscal year 2023, are explained in detail.

Fixed components

- | | | |
|----|---------------------|--------------------------------------|
| 1. | Basic salary | Annual target amount: EUR 250,000.00 |
| 2. | Bonus for retention | Annual target amount: EUR 100,000.00 |
| 3. | Fringe benefits | Annual target amount: EUR 20,000.00 |

Performance-based components

- | | | |
|----|--|--------------------------------------|
| 1. | EBIT-related executive bonus / Performance Bonus | Annual target amount: EUR 250,000.00 |
|----|--|--------------------------------------|

The annual target amounts may be exceeded up to the amount of the maximum compensation.

Compensation components in detail

The basic salary is a fixed annual salary, payable in twelve equal instalments at the end of each calendar month.

In order to pay tribute to his loyalty to the group, the Company grants the sole Executive Board member a bonus payment in the amount of EUR 100,000.00, if he is still employed by the Company at the end of the fiscal year.

The fringe benefits mainly consist of the provision of a company car, contribution subsidies for accident, life and health insurance and the inclusion in the D&O insurance policy.

No company pension commitments have been made with regard to the sole Executive Board member.

The performance-based variable compensation in the form of the executive bonus depends on the attainment of certain financial targets. The executive bonus is an incentive for the contribution made by the Executive Board to the implementation of DATA MODUL AG's business strategy in the respective fiscal year.

To ensure that the executive bonus has a long-term incentive effect, only 2/3 of the executive bonus will be paid out after adoption of the annual financial statements and approval of the consolidated financial statements for the past fiscal year. The outstanding 1/3 of the executive bonus is only paid out in the following fiscal year if the DATA MODUL Group continues to develop positively.

The basis for calculating the executive bonus is the EBIT of the DATA MODUL Group, as reported in the consolidated financial statements for the past fiscal year.

The amount of the executive bonus paid out is staggered and depends on the percentage of DATA MODUL Group's actual EBIT compared with DATA MODUL Group's budgeted EBIT. The maximum executive bonus payout amounts to EUR 250,000 if targets are met 100%. Before the beginning of the respective fiscal year, the Supervisory Board approves a budgeted EBIT figure for DATA MODUL Group.

The figures reported in the adopted consolidated financial statements of the Company for the respective past fiscal year are decisive for the actual EBIT achieved by DATA MODUL Group.

If the EBIT performance exceeds the EBIT target by up to 200%, the Executive Board member is entitled to a performance bonus of up to EUR 250,000. The amount paid out as a performance bonus depends on the percentage of the DATA MODUL Group's actual EBIT in relation to the DATA MODUL Group's planned EBIT.

Observance of the maximum compensation

The Supervisory Board has determined that the total compensation that an Executive Board member can receive in a fiscal year under the current compensation system may not exceed an amount of EUR 870,000.00 (maximum compensation). This is ensured by a cap on the variable compensation. The sole Executive Board member observed and undercut the maximum compensation in the fiscal year 2023 with regard to the granted and/or due fixed and variable compensation.

Review of the appropriateness

The Supervisory Board regularly reviews the appropriateness and the conventionality of the Executive Board's compensation. The Supervisory Board includes companies from the Company's sector as well as other companies listed in the Prime Standard. In addition, the Supervisory Board considers the compensation of the senior management team and the total number of employees of DATA MODUL Group.

In addition, company pension in the amount of kEUR 31 was paid in the fiscal year 2023 to a further former Executive Board member who has terminated his activity more than ten years ago.

Clawback of variable compensation components

In the fiscal year 2023, the Supervisory Board did not find any cause to make use of the option provided for under the compensation system to reclaim variable compensation components.

Third-party benefits and termination benefits

In the fiscal year 2023, no third-party benefits or loans were granted to the sole Executive Board member, nor were any similar benefits granted. The sole Executive Board member does not receive any compensation from mandates for group companies.

There are no contractual agreements with the sole Executive Board member regarding the procedure in the event of premature termination of the Executive Board member's contract without good cause. The Supervisory Board is of the opinion that this is not appropriate because the Executive Board generally has no influence on a termination decision without good cause.

There is a severance payment provision in the event of a change of control at DATA MODUL AG amounting to a maximum of two years' compensation.

2. Compensation of the Supervisory Board

Compensation system for Supervisory Board members

Pursuant to section 113 para. 3 AktG, the Annual General Meeting of listed stock corporations shall resolve on the compensation of Supervisory Board members at least every four years.
