

DATA MODUL

HALF-YEARLY FINANCIAL REPORT
AS OF JUNE 30, 2016

Dear Shareholders,

Business was good in the second quarter of 2016, as DATA MODUL maintained its momentum from Q1, boding well for profits in fiscal year 2016. The half-year revenue figure of 100.1 million euros is 11.3% higher versus the previous year (89.9 million euros). As of June 30, 2016 EBIT totaled 7.8 million euros (previous year: 7.1 million euros). Net income amounted to 5.6 million euros (previous year: 5.2 million euros). As a result, earnings per share rose to 1.58 euros (previous year: 1.52 euros). As of June 30, 2016 orders received were up by 6.1 million euros or 6.4% year-on-year, making for a promising second half of the year.

DATA MODUL management works steadily on implementing the new "Shape 2020" strategy, the overarching objective of which is to make us one of the world's leading visual solutions providers by the year 2020. We continue in our efforts to ensure balanced sales diversification in the three major regions of the world, Europe, the U.S.A. and Asia, with a view to balancing out fluctuations in individual markets and avoiding potential dependencies.

GROUP INTERIM REPORT

I. General economic conditions

The UK's referendum vote to leave the EU made reality of what had been considered a major political risk. We believe the UK will initiate the exit process in the coming months, which will substantially undermine willingness to invest, causing the British economy to slide into recession. We forecast slower growth for the world economy in 2016 in connection with this event, even if its negative consequences to other economic areas is limited.

The Brexit will have an impact on the US as well, due to which we project a somewhat lower growth rate for the US in the second half of 2016, coming after a robust first half-year. The Brexit-related strengthening of the dollar will play a role in this slowing.

In Germany, our primary market, Brexit impact will crash upon the rocks of a persistently strong domestic economy. Negative economic implications are not expected to be dramatic, though a UK recession would not leave the German economy entirely unaffected. Restrained corporate investment resulting from uncertainties over the United Kingdom's future market access and the future of the EU in general will affect us as well. These two factors could weaken economic growth in the second half of 2016.

Key Corporate Results

In million euros	4/01 - 6/30/2016	4/01 - 6/30/2015	Change	1/01- 6/30/2016	1/01- 6/30/2015	Change
Total revenue	50.2	44.6	12.6%	100.1	89.9	11.3%
Displays	27.8	26.5	4.9%	58.6	53.7	9.1%
Systems	22.4	18.1	23.8%	41.5	36.2	14.6%

Employees	393	358	9.8%	393	358	9.8%
Earnings per share (in euros)	0.73	0.55	32.7%	1.58	1.52	3.9%
Based on shares outstanding	3,526,182	3,504,152	0.6%	3,526,182	3,449,076	2.2%

II. Business performance

DATA MODUL recorded a 12.6% rise in revenue in Q2 2016 to 50.2 million euros (previous year: 44.6 million euros). The half-year figure of 100.1 million euros is 11.3% higher versus the previous year (89.9 million euros). The Displays business segment recorded revenue of 27.8 million euros in the second quarter (previous year: 26.5 million euros), while the Systems segment saw revenues of 22.4 million euros (previous year: 18.1 million euros). Orders received Group-wide in the second quarter came to 48.4 million euros (previous year: 44.3 million euros), totaling 100.8 million euros for the first half-year 2016 (previous year: 94.7 million euros). Although compared to last year, order backlog decreased slightly by 4.9% to 102.2 million euros (previous year: 107.5 million euros), it remains at the same level as at the end of December 2015 – thus our optimistic revenue estimates for the current fiscal year are intact. The Company's strategy to enhance its international orientation continues to yield successes, reflected in an increased export rate of 44.5% for the first six months of 2016 (previous year: 39.2%).

III. Profitability

For the period January 1 through June 30, 2016 DATA MODUL recorded EBIT of 7.8 million euros (previous year: 7.1 million euros), representing an increase of 9.9%, with the Displays business segment contributing 5.0 million euros (previous year: 4.1 million euros), whereas the Systems business segment contributed 2.8 million euros (previous year: 3.0 million euros). In the fiscal year thus far the Company's EBT has risen 11.4% to 7.8 million euros (previous year: 7.0 million euros). As of June 30, 2016 DATA MODUL closed out the first quarter with a net profit of 5.6 million euros (previous year: 5.2 million euros). Based on the result for the period, earnings per share was 1.58 euros (previous year: 1.52 euros).

IV. Financial position

Operating cash flow for the period ended June 30, 2016 was -2.6 million euros (previous year: -1.7 million euros). At the end of the second quarter of 2016 the Group's equity ratio (in accordance with IFRS) was 67.9% (December 31, 2015: 66.6%). The Group thus demonstrates continuing financial stability, and has sufficient liquidity.

V. Capital expenditure and regional offices

Capital expenditures in the first half-year 2016 came to 2.3 million euros (previous year: 1.1 million euros). In the current fiscal year we plan to invest in fixed assets at our Munich location and in expanding our production and logistics center in Weikersheim. To ensure we maintain our competitiveness, we will continue investing in research and development. DATA MODUL AG maintains subsidiaries in Düsseldorf and Hamburg, which serve as regional sales offices.

VI. Employees

As of June 30, 2016, the Group had 393 employees, as compared to 358 in the previous year, of which 58 staff were employed by DATA MODUL companies located outside Germany (previous year: 54 employees).

VII. Risks and rewards

In fiscal year 2016, DATA MODUL will remain focused on growth in its core Displays and Systems businesses. Global economic trends, exchange rate movements, rising commodity and energy prices and uncertainties regarding customer ordering behavior constitute risks which may have a lasting impact on our business. We are aware of these risks and carefully monitor their impact on our business operations. Currently, there are no apparent going-concern risks for the DATA MODUL Group. No significant changes have occurred in the information on risks and rewards published in the 2015 Annual Report.

VIII. Subsequent events

We are not aware of any significant events that have occurred after the balance sheet date June 30, 2016 which would have had a major influence or impact on the Company's financial position, financial performance and/or cash flows.

IX. Forecast and outlook

The statements made in the following regarding the future business results of DATA MODUL Group and assumptions regarding market and industry trends deemed material in relation thereto are based on opinions which we believe are realistic at this time given the information available. However, these assumptions and assessments are subject to uncertainty and carry the inevitable risk that projected developments may not actually occur, with respect to either their direction or extent.

We expect the global economy to improve further in 2016 and 2017, albeit with reduced momentum. In addition to domestic political developments, decisions and developments on the European level will remain of foreground importance in 2016. Europe is set to benefit from continuing expansive fiscal policies, lax ECB monetary policies and continuing growth in global demand.

We believe we will reach our targets for fiscal year 2016, raising our estimates slightly due to the continuing positive market environment. One-time expenses including heightened trade show costs, exchange losses and restructuring charges will reduce second-half earnings.

Results in the United States, our most important foreign market, are expected to be more modest in the second half-year due to Brexit fallout and possibly to the US elections, though our expectation of solid growth of this market remains intact.

We expect the economy in China, our new market, to remain subdued in 2016 and 2017. Yet we are optimistic, as growth rates there are still twice as high as in the "old" industrialized countries. Also, the Chinese government is taking active steps to reverse declining growth through stimulus measures.

The "Shape 2020" strategy program is aimed at further strengthening DATA MODUL's global competitiveness. We aim for balanced growth in Europe and the US, with Germany naturally forming the backbone of the Group. The DATA MODUL Group will thus find growth opportunities in 2016 arising from the overall economic situation and from new products developed to market-readiness, despite fierce competition. We will nevertheless consequently pursue our strategic goals with a view to maintaining the growth trajectory of previous years.

In view of the rather favorable market environment, the Executive Board expects DATA MODUL Group to increase its profits. Both our business segments are expected to grow, although our highest expectations are for the Systems business.

X. Related party transactions

Per disclosure dated April 29, 2015, ARROW Central Europe Holding Munich GmbH, Neu-Isenburg, holds approximately 53.66% of DATA MODUL AG voting rights. DATA MODUL AG purchased goods at arm's-length prices from Arrow Central Europe GmbH, Fürstfeldbruck and Putzbrunn, Germany.

NOTES – EXPLANATORY DISCLOSURES

Basis for preparation of the financial statements

The abbreviated Interim Group Report for the first half of 2016 does not contain all information and disclosures required when preparing consolidated financial statements and thus shall be interpreted in the context of the Consolidated Financial Statements as of December 31, 2015. The recognition and measurement methods applied to the Consolidated Financial Statements as of December 31, 2015 remain unchanged and were applied when preparing these abbreviated Consolidated Half-Yearly Accounts. This Interim Group Report has been prepared in accordance with IAS 34 – Interim Reporting. The IFRS newly adopted in fiscal year 2016 had no effect on our balance sheet or earnings. This Interim Group Report and the Interim Management Report have not been audited in accordance with Sec. 317 German Commercial Code (HGB), nor have they been audited by a financial accounting firm.

The Half-Yearly Financial Report was prepared in euros (EUR). For presentation purposes, the euro amounts are rounded to thousands of euros (KEUR). For computation purposes, the tables and notes may include deviations from the accurately calculated amounts due to rounding.

Segment reporting

For Company management purposes, the Company has been organized into business units according to products and services, comprising the following two reportable business segments:

- » Displays
- » Systems

Segment results 1/01 – 6/30/2016	Displays	Systems	Group total
Revenues	58,533	41,518	100,051
Net income for the period	3,759	1,796	5,555

Segment results 1/01 – 6/30/2015	Displays	Systems	Group total
Revenues	53,733	36,119	89,852
Net income for the period	3,203	2,030	5,233

All figures in KEUR

Management representation

I represent, to the best of my knowledge and ability and in accordance with the applicable accounting principles for interim financial statements, that the Half-Yearly Financial Report presents a true and fair view of the Group's financial position, financial performance and cash flows, and that the Interim Group Management Report describes fairly, in all material respects, the Group's business performance, results and financial position, as well as significant risks and opportunities for the Group of relevance during the remainder of the fiscal year.

Dr. Florian Pesahl
Executive Board

Disclaimer

The current Consolidated Half-Yearly Financial Report contains certain forward-looking statements based on currently discernible and available information as well as assumptions and forecasts made by DATA MODUL management. These are mainly for information purposes and may be identified by terminology such as "believe", "expect", "forecast", "intend", "predict", "plan", "estimate" and/or "strive for". Such statements are only valid at the time of their publication. Various known and unknown risks, uncertainties and other factors may cause the actual results, financial position, business trends or performance of the Company to substantially deviate from the forecast given herein. DATA MODUL does not assume any obligation to continue supporting forward-looking statements made, nor to revise such in light of future events or developments. The Company shall not be liable and offers no guarantee, express or implied, for the updatedness, correctness or completeness of the disclosed data and information.
